<b>Transport</b>	The answer depends on the individual festival and what the community group will have in place at their festival. The majority of these festivals are quite small and are attended by people in the area so therefore in walking distance. Sustainability is mentioned within the Guidance Notes and there is a question within the application on Environmental sustainability.
<b>Public Placemaking, Community &amp; Culture</b>	The answer is dependent on the event and what the event organisers plan for their programme but a general principle that applies to the Events and Festivals Fund is that the event is required to demonstrate a positive impact on the local community and promote a positive image of the Borough.

## 2. What impact will the proposals have on local, sustainable food supply chains?

<p><b>Food - If this activity involves either the direct or indirect purchase of food or catering services will there be a negative impact on a sustainable food system?</b></p> <p>Note: If the answer is yes, select negative.</p> <p><b>Additional information:</b></p> <p>Food systems currently account for 21-37% of total global greenhouse gases and are a primary cause of environmental degradation and significantly contribute to socio-economic and health inequalities. This can be mitigated by specifying sustainable food and catering services, fresh seasonal food of a high nutritional value produced through low environmental impact farming methods and high standards of animal welfare.</p>	Don't know

## Data Protection

1. Is Data Protection relevant to the Policy, Strategy, Plan or Public Service?

Yes

2. Is the introduction or change of this policy or processing activity likely to result in a high risk to individuals' interests, including physical, material or non-material damage?

No

### **3. Explain broadly what the policy/strategy/plan or public service aims to achieve and what**

#### **type of processing it involves.**

The Community Festivals Fund aims to provide financial support to events held within the Borough.

Personal information will be used to:

- measure the event organisers financial viability to protect Council against fraud or misuse of public money
- keep in contact with the event organisers throughout the duration of their letter of offer

As this grant is co-funded by Council and DfC one of the DfC stipulations is that the applicants essential documents - constitution, accounts and AGM minutes and office bearers must be checked yearly and updated onto the Government Funding database. In the application and guidance Applicants are advised to encrypt their information and instructions on how to do this are attached too.

#### **4. Describe the nature of the processing**

The Council will collect the names, contact details of event organisers applying for financial support.

Applicants will also supply bank statements and most recent accounts.

The information is hand delivered to 2 specific Council officers or emailed to a shared inbox with access limited to relevant officers. Advice to applicants is to encrypt documents sent via email and guidance on how to do this is sent with the application pack.

The information will be collected with an appropriate privacy notice in place to ensure transparency. This

will be a data protection statement at the end of the application form that all applicants must sign that they have read and understood.

The information will be stored electronically on Council systems, with access limited to relevant officers. It will be held for the duration of the event and for 7 years from the date of the close of the fund (3rd November 2023) when it will be destroyed.

The information will be used to assist in the administrations, management and audit of the Community Festivals Fund.

#### **5. Describe the context of the processing**

The Council will collect the names, contact details of event organisers applying for financial support.

Applicants will also supply bank statements and most recent accounts.

Applicants to the Events and Festivals Fund are made aware that, for audit purposes, the Council will be legally required to retain the information for the appropriate retention period. They also sign up to a Data Protection Statement - the statement at the end of the application form reads:

Ards and North Down Borough Council values your right to personal privacy. We collect this information solely for the purposes of this application and do not share it with anyone. We comply with the DPA (Data Protection Act) 2018 and UK GDPR (General Data Protection Regulation), ensuring that information is

collected fairly and lawfully, is accurate, adequate, secure, up to date and not held any longer than necessary.

Advice is given to all applicants on how to encrypt their documents for added security.

## 6. Describe the purposes of the processing.

The purpose of processing the information is to enable Council to financially assist events within the Borough to increase the development and growth of the events sector and of the economic benefit to the Borough.

Having the bank statements/accounts from the event organisers shows their financial viability therefore reduces the risk of fraud for Council.

## 7. Consultation

No consultation necessary as individuals will be advised, at the point of collection, how their information will be used.

Applicants are advised to password protect their applications and documents and instructions on how to do this are included.

## 8. Necessity and Proportionality

The lawful basis for processing will be article 6(1)(b) of the GDPR 2018, and the DPA (Data Protection Act)2018 as the information is required to be collected for the administration of the Events and Festivals Fund.

There is no other way to achieve this outcome. There will be no function creep as the information will only be saved on Council computer systems in a secured folder with minimal officer access and will not be shared with anyone.

## 9. Identify and assess risk

## Conclusion

### Conclusion

The Community Festival Fund grant has been running for many years and is vital for many of our Community/Voluntary groups in the Borough to be able to run a Community festival. The application form and guidance criteria attached has had no major changes and the questions are aligned with the funding requirements we need to meet for DfC.

Any constituted community group that meets the funding criteria is able to apply for this funding. The Community Festival Fund has been updated to ensure that there is equity of access to the grants and to encourage as many people to apply as possible, a question has been added to the form requesting how the group promote equality and good relations this will ensure that the Council can in no way be seen to be supporting one particular religious belief, political opinion, racial group over another. The questions and scoring for the Scheme have been updated to ensure a range of groups can apply. Applications will be considered on core criteria. Applicants must clearly demonstrate in the application form how they meet these criteria.
